

# Welcome To

**ABS**  
FOODS LTD.  
Food Ingredients Worldwide

## WHO WE ARE

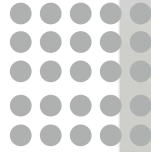

---

ABS FOODS is a leading ingredient manufacturing and trading company

We specialise in the sourcing, manufacturing and trading of innovative ingredient solutions to the food, feed, and technical industries.

The company was established in 1997 and has built a solid foundation through strategic investments in human resources, equipment, compliances and accreditations. In 2010, ABS established its own manufacturing facility in Mahuva - Bhavnagar.

Today company has 4 manufacturing locations, 3 in Gujarat and 1 in Rajasthan. It has since grown from strength to strength.

- PULVERIZING FACILITY
- ABS ASSURANCE
- GLOBAL STRATEGIC ALLIANCE
- (JIT)JUST IN TIME DELIVERY

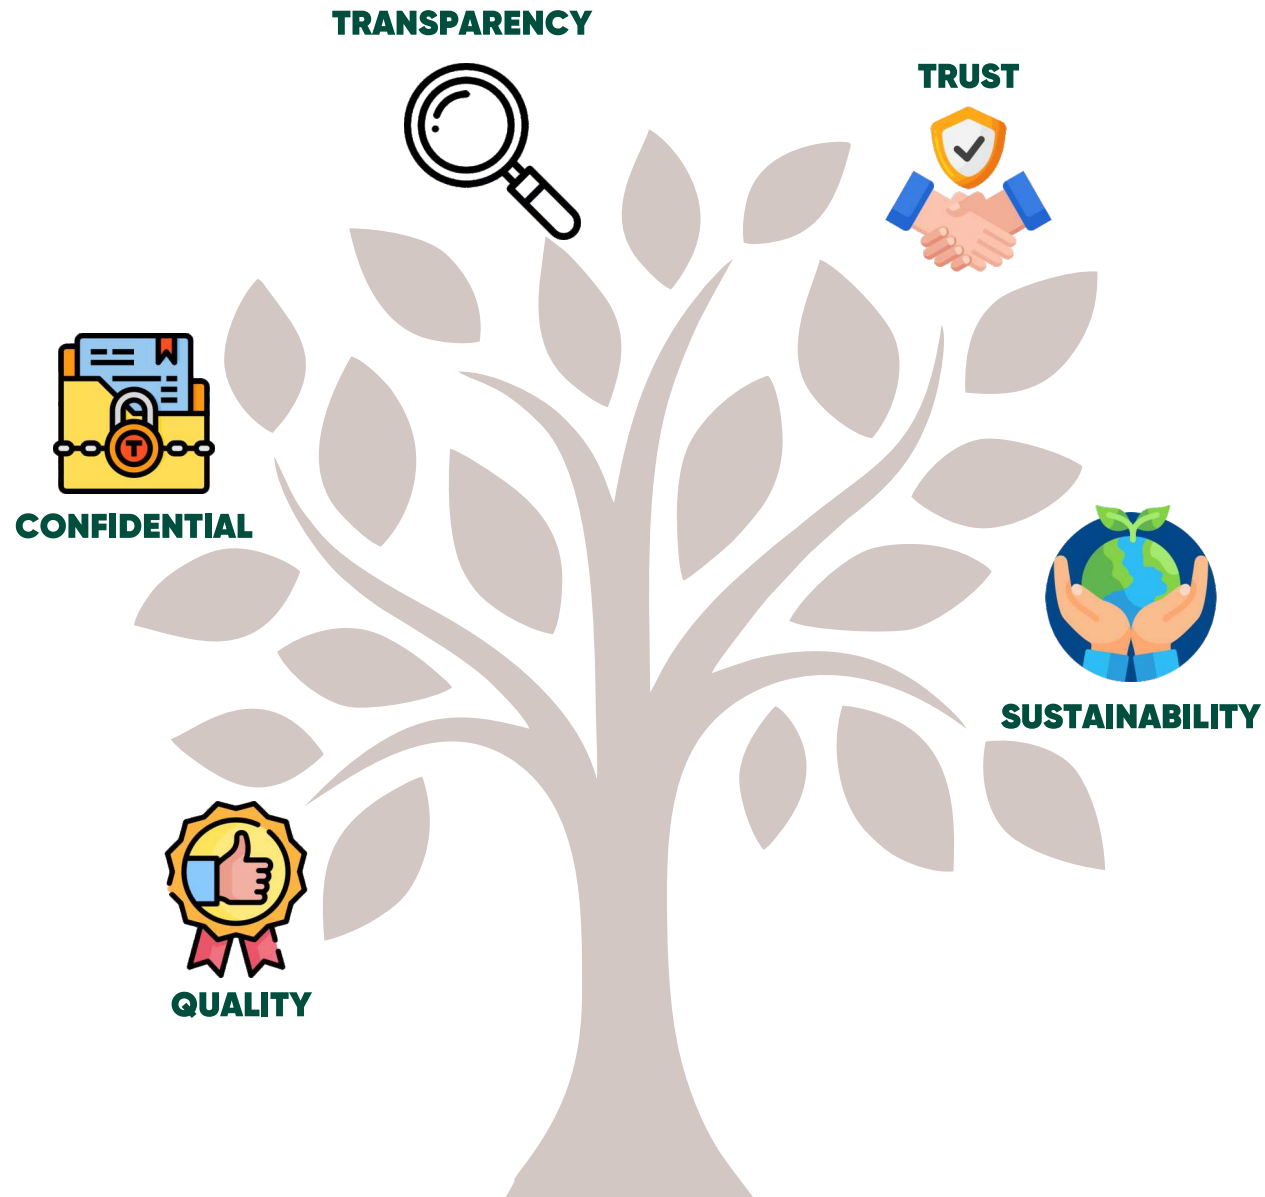

# JOURNEY

By the year 2024 ABS will come with the largest plant of dehydration in india.

# OUR VALUES

---

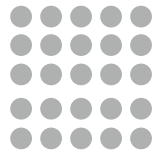

## OUR VISION

---

In our business practices, we strongly focus on supporting our farmers and working in a way that is beneficial to them. Our products are directly sourced from agriculture thus making sure that farmers gain firsthand.

At our manufacturing and management locations, more than 50% of the employees are women. We have imbibed strict safety controls as well as give continuous expert training to our workers to ensure suitable working conditions. We envision that our strongly rooted principles and values for our farmers, workers and society shall stay the same despite our expansion to new realms of the world.

## NOTABLE INSIGHTS OF ABS

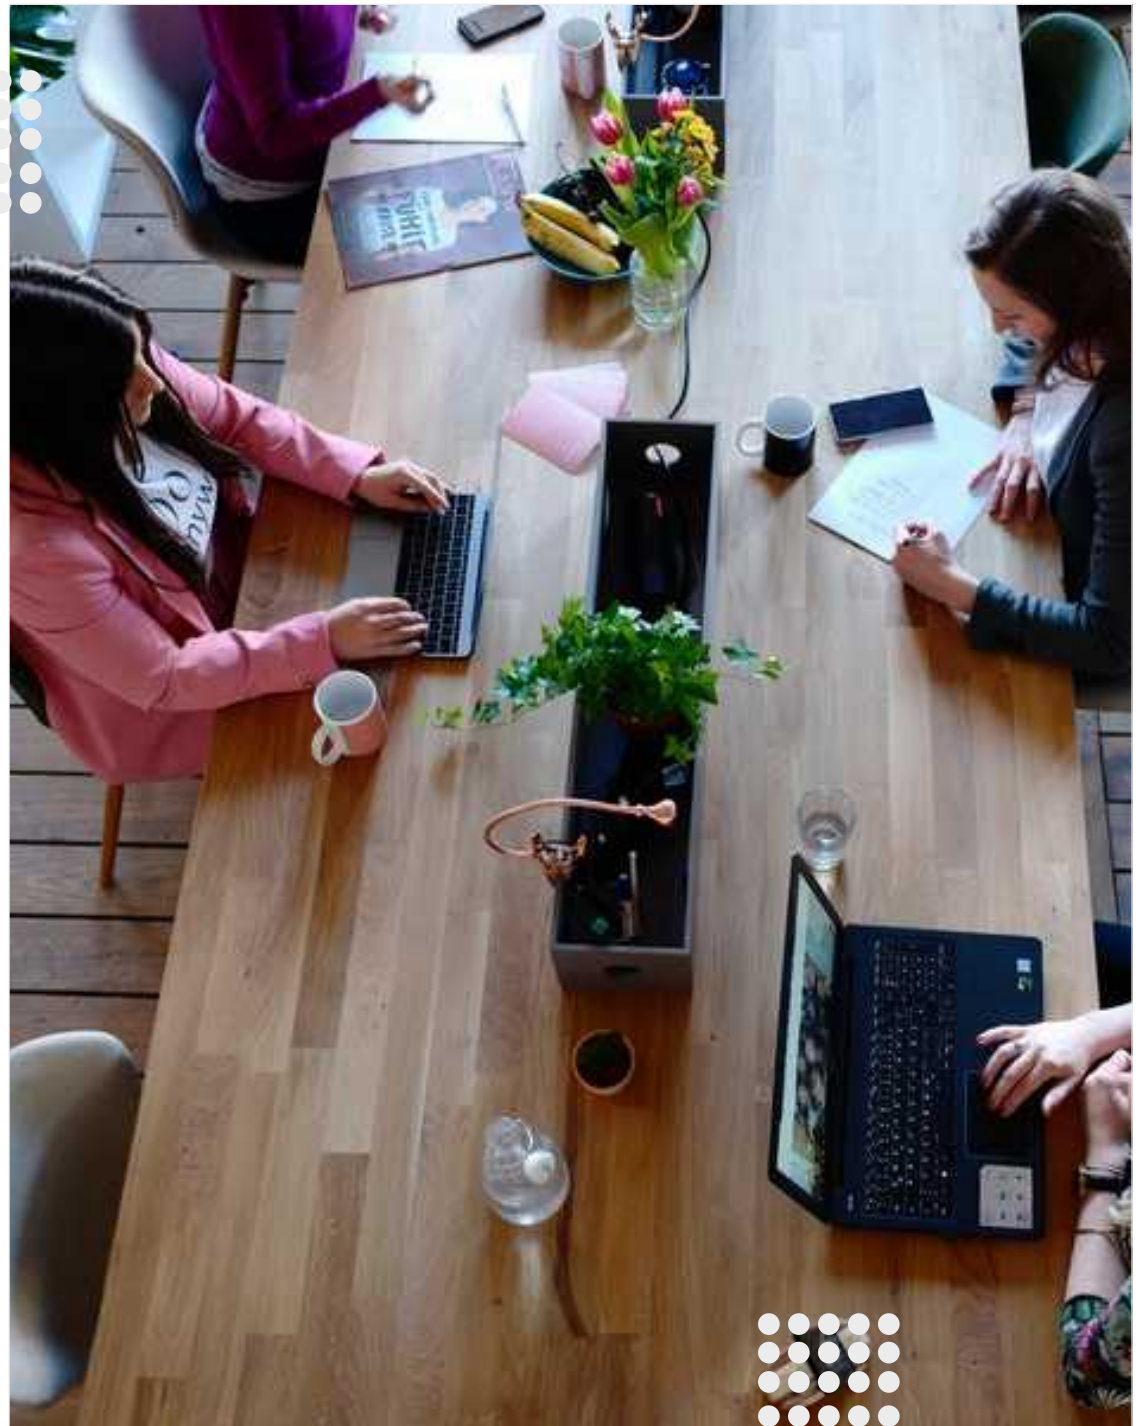

A). Our factory comprises of 50% women in terms of the gender of the employees. Our aim is to improve to 10% women orientation every year. We have made it our responsibility to provide and care for females that work with us.

B). When we process the peanuts for our products, the remaining wastage which is the outer covering of peanuts is kept aside. Through the peanut decorticator, we separate it out and use the waste to form fuel which is used for the operation of our machines. -'Best out of Waste'

C). Our raw materials especially onion and garlic are purchased directly from the farmers. We generate their income and support them directly, therefore, ensuring no middlemen in the whole process of our procurement.

D). Our suppliers and vendors are regularly trained so that there is a thorough implementation of strict regulations in terms of the quality of our raw materials and hence, professionalism is maintained.

E). We provide quarters to our laborers to ensure their proper care and to support them financially.

## OUR MISSION

We have inculcated advanced global technologies in ABS. We are futuristic and hence have planned notable advancements for elevating ABS's infrastructure and technological aspects for quality -

- OZONE
- HRM
- STEAM STERILIZATION

Our forte lies in continuously upgrading our processing and management to achieve the utmost customer satisfaction.

We envision being the finest manufacturer at a global level.

# SERVICES

---

## **FORMULATION ASSISTANCE AND ADVICE**

Our qualified professional natural scientist has more than 10 years' experience in the food industry, and is available to assist and advise on ingredient solutions and how to optimise formulations.

## **SUSTAINABLE RANGE OF INGREDIENTS FOR THE FOOD, FEED AND TECHNICAL INDUSTRIES**

We have an existing range of solutions inspired ingredients that is currently produced at our factory in Kya Sand, Johannesburg.

## **SPECIALITY INGREDIENT SOURCING**

Our sourcing specialists search the globe to find any speciality ingredient/s required or requested.

## **CUSTOMER SPECIFIC & CONTRACT BLENDING**

Our facilities allow us to source and custom blend according to our customers' requirements. Customer confidentiality is respected and non-disclosure is guaranteed. By contracting Ingreto, clients can be assured of a continuous supply of blends as and when needed.

## **COST EFFECTIVE STRATEGY**

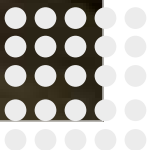

We have been in the industry for several years and therefore built profound global connections and presence. Our constant perseverance in building our growth has allowed us to choose the most viable and cost-effective purchasing locations and suppliers from around the world. Our procurement is directly from the farmers in agriculture, and as we eliminate the work of middlemen, we provide our clients with the most efficient and economical solutions.

## DELIVERY AND QUALITY

---

We ensure premium quality and timely delivery of our products. Even during the global pandemic, we considered our products a necessity for the people of our nation, and hence ensured premium quality and timely delivery, while fighting against the challenges we faced during the pandemic. We keep evolving and taking advanced measures to ensure our goals of punctuality and premium quality.

# OUR CLIENTS

---

ABS stands today as one of the reputed companies in the highly competitive food industry. Our forte lies in achieving the utmost satisfaction from our clients. The reasons behind our excellence are our outstanding R&D, rigid quality control, and strong principles & values. Our clients can count on great taste.

# OUR CLIENTS

---

## SUSTAINABILITY

For us, sustainability refers to a balance between economic growth, environmental care, and social well-being. We as a sustainable organization have taken up the following key measures:

**A)** Our procurement is done directly from agricultural farmers. We have removed the channel of middlemen and our forte lies in supporting them.

**B)** Solar panels are fitted to our infrastructure for energy generation throughout our workplace, which is a huge contribution towards environmental preservation.

**C)** Use natural resources efficiently

- Reduce use of fossil fuels and optimise water use in production.
- Optimise land use and reduce the conversion of land for agriculture.
- Design energy and water efficient food manufacturing sites.

# GLOBAL PRESENCE

---

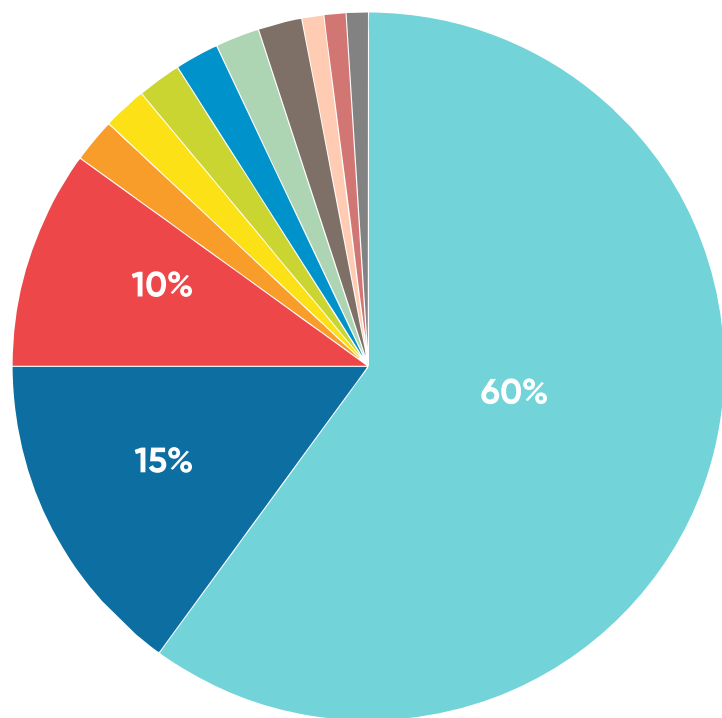

At ABS, we ensure quality by controlling, managing, and regulating the entire process. Our Merchant Export division deals in various spices and agro products. We have exported our premium quality products to various countries. We aspire to grow our global presence and spread happiness all over the world.

# BUSINESS WITH

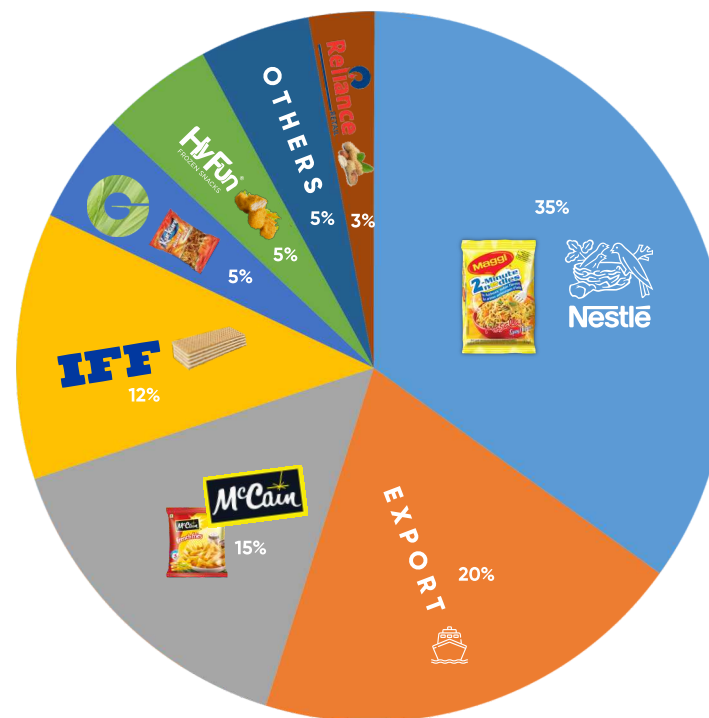

## PRODUCT PORTFOLIO

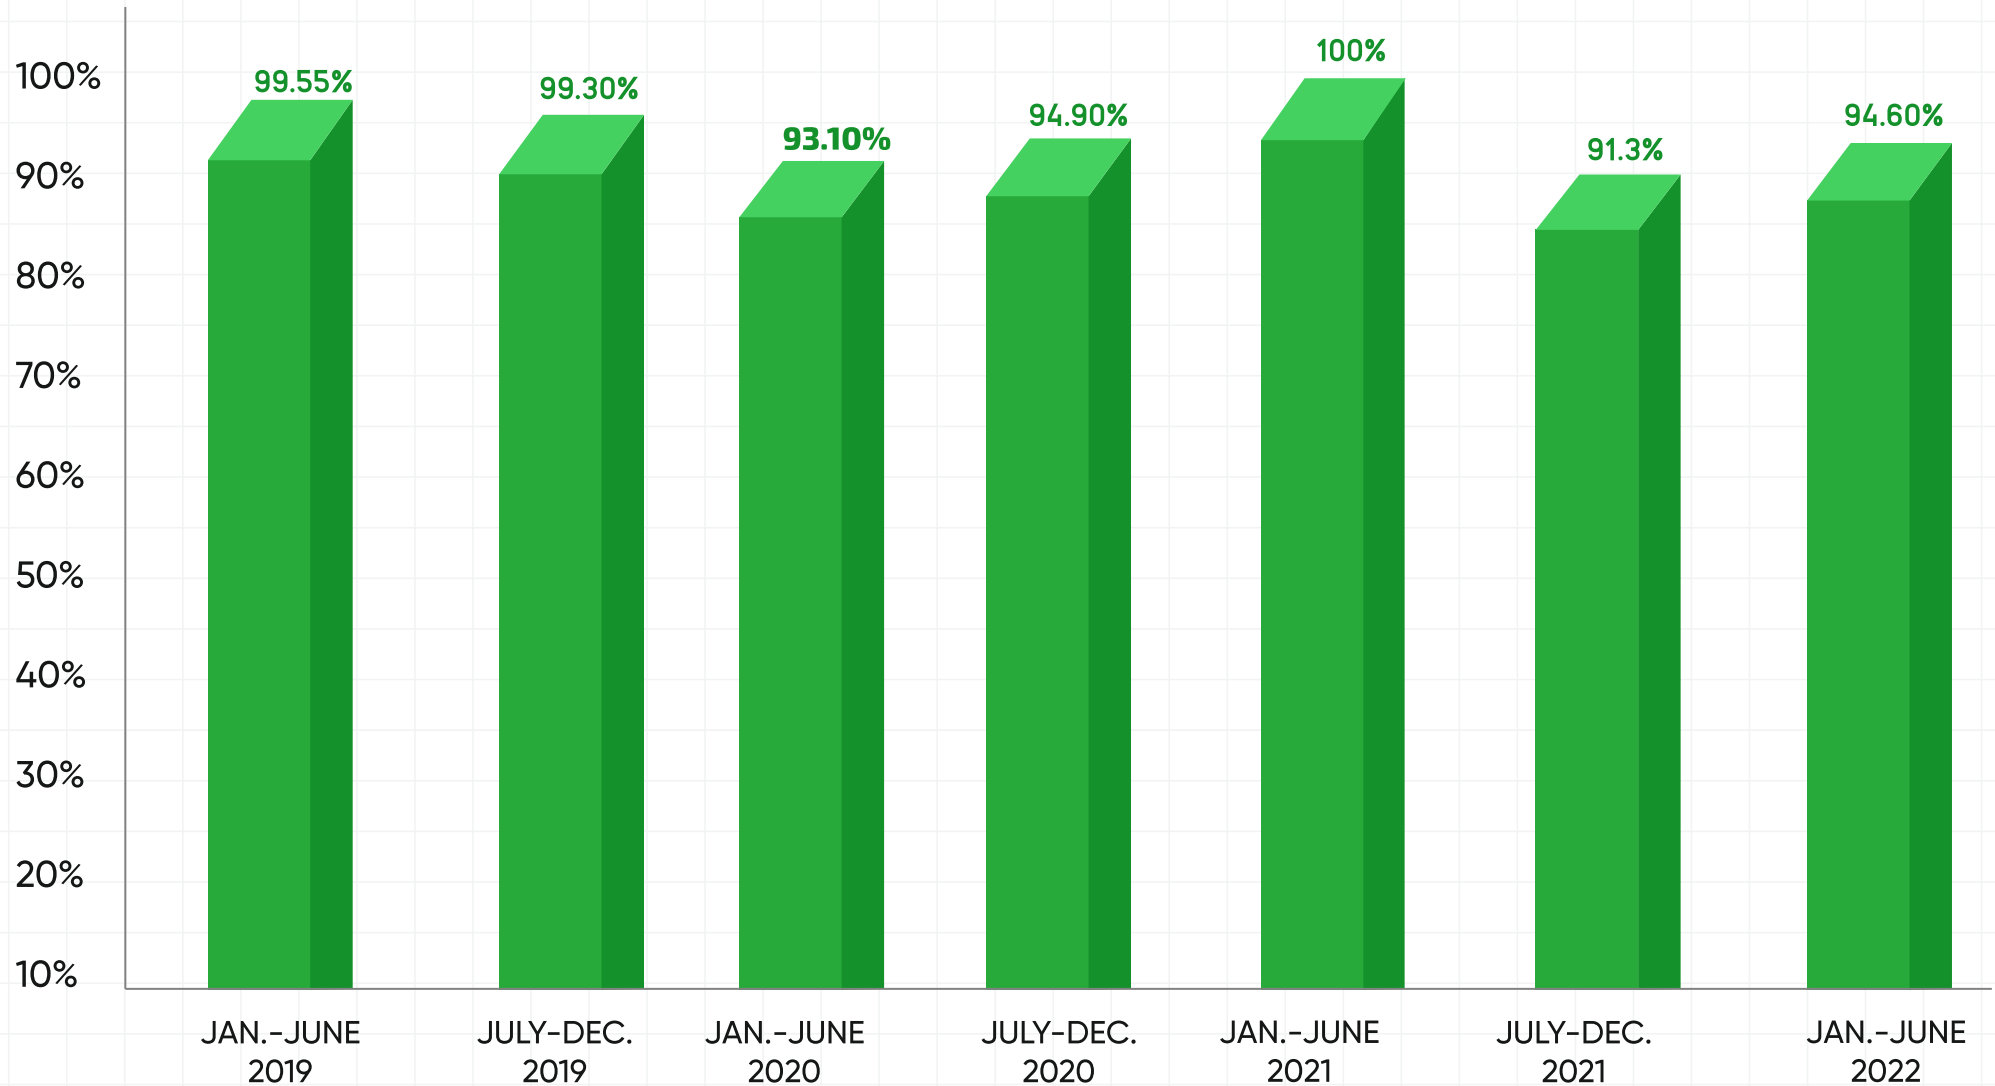

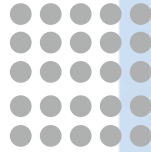

- |                     |              |

## **SUGGESTIONS FOR IMPROVEMENT**

---

1. Found Poor Quality Of Packing Bags
2. Loose Thread Observed In Material On Affected Bags
3. Dead House Fly On Bag
4. Lumps Observed In Material
5. Live Weevils Contamination Found During Incoming Inspection

## SAFETY MOMENTS

### FACTORY & EMPLOYEE HYGIENE

We ensure that all our employees at all times are wearing the required attire equipment as provided to them – gloves, gown or coverall, mask, etc. We even provide rubber shoes for danger zones so that no electrical mishaps happen. This is done to maintain the hygiene of the factory as well as ensure the safety of the workers.

We ensure pest control at our factory spaces and maintain absolute proper hygiene to not allow their development especially considering the importance of cleanliness and pest-free infrastructure in our industry. We regularly ensure proper sanitization of our place as well as the use of sanitizers by our workers before engaging with product processing.

### HUMAN INTERFACE

The national toll stands at 4.46Cr cases during the global pandemic and 5.29L deaths in total. At the state level, 12.8L cases were registered and 11,037 deaths happened in Gujarat. At our factory, only 30 cases were registered and out of them, the death toll remains at zero. We were open during the pandemic considering the nature of our industry. Our statistics prove that we have strict guidelines and equipment implemented in our infrastructure.

## MARKETING INSIGHTS

We have participated several exhibitions in the past few years at the national level in various cities and at the global level in various countries across the world. We started as small but we have grown up to be a notable butterfly in this industry. We procure our supplies from anywhere in the world from wherever it is economically and sustainably viable, and we export our products to various countries in the world. We have a profound reach at a global level at both procuring and supplying levels. On social media, we are socially active and anyone can reach us through Instagram, Facebook, or LinkedIn.

# SOCIAL ACTIVITIES

During the global pandemic especially, our organization decided to help others. We believe in our responsibility towards people and the earth. Our factory stayed open because we deal in food ingredients, therefore proper sanitation and employee help measures were taken. We organized many donation and social camps - Mask donation, Eye-checkup camp, cattle feed donation, plant saplings day, timber donation, blanket donation, sugar donation, and much more.
